Grand Canyon: Monument to the Flood This 55 minute video uses photography and computer graphics to explain how Grand Canyon is best understood in the light of phenomena associated with the Genesis flood. $21.00

Hearing Ear and Seeing Eye, The David Menton Dr. Menton escorts you on a journey into the marvelous intricacies of the human ear and eye, which both have the clear stamp of the Creator. 65 min. $13.00

Hidden World of Africa, The Exploration Films Remarkable photography reveals some of the hundreds of invertebrates that thrive and support lives far larger than their own. Discover the big wonders of small creatures. 50 min. $20.00

How well Designed was Noah’s Ark? Werner Gitt Dr. Gitt shows that the dimensions of Noah’s ark were optimal for stability and efficient use of material. $15.00

Ice Age: Only the Bible Explains It, The Michael Oard Meteorologist Michael Oard examines the physical evidence, scrutinizes the secular theories and shows that only the Bible sufficiently explains the mechanism necessary to produce and sustain the Ice Age. $13.00

Icons of Evolution ColdWater Media Learn about the controversy that engulfs one town when a teacher actually tries to tell students that some scientists disagree with Darwin. Discover that the most famous icons of evolution are based on outdated research and sloppy logic. $18.00

Image of God, The David Aikman Learn compelling new evidence that man was created in the image of God. View the fossil record and see for yourself that the facts support man as a special creation of God and not a highly evolved ape. 27 min. $13.00

In the Beginning was Information Werner Gitt An information specialist shows that coded information can only come from an intelligent source. The DNA code is proof of an intelligent Designer. $15.00

Incredible Creatures that Defy Evolution (Vol. 1), (Vol. 2), (Vol. 3), Dr. Jobe Martin Dr. Martin was a traditional evolutionist but powerful evidence from animal design convinced him of the truth of creation. Each video shows the fascinating design of six to eight different animals. $20.00 ea.

Journey through Creation Sean Meek This presentation explores the controversy between creation and evolution and why it matters. The central beliefs of both sides are discussed and the consequences of a society dominated by the religion of Evolutionism are reviewed. Learn how to refute the fallacies of evolution. (50 min) $20.00

Journeys to the Edge of Creation Moody Institute of Science Two discs take the viewer through the solar system, the Milky Way and beyond. See the grand detail only the Master Planner could have created. $30.00

Life’s Story: the one that hasn’t been told Exploration Films In a wildlife program unlike any other seen, you will journey to discover the story of life itself. The program examines the long held beliefs that have been the foundation of natural selection for more than 150 years. $20.00

Life’s Story 2: the reason for the journey Exploration Films In this program you will learn about marine life, the complex behaviour of birds and the differences between apes, monkeys and humans. See the intricate designs of nature’s vast array of creatures and our place among them in this wonderfully created world. $20.00

Lucy, She’s No Lady David Menton Dr. Menton leaves no doubt that the famous Lucy fossils belong to a knuckle-walking, ape-like creature – not a lady! $13.00
Mammoth and the Ice Age *Michael Oard* You’ll be captivated as this video unravels the baffling mystery of the Ice Age that followed the Biblical Flood and answers your questions about the Siberian mammoths. $13.00

Millions of Years: where did the idea come from? *Terry Mortenson* This unique video introduces the men and the theories that helped popularize the idea of millions of years of Earth history. The issue is not science vs. religion but anti-Christian ideas vs. the clear teaching of Scripture. (65 min) $15.00

Mount St. Helens: Explosive Evidence for Creation *This video shows actual photographs of Mount St. Helens before, during and after its 1980 eruption and discusses its significance for the Biblical Flood. (55 min)* $20.00

Only One Race *Ken Ham* This video meets the racism issue head on. It addresses the questions of skin colour, origins of the nations, the curse of Ham and the influence of humanism and evolution on racist attitudes. $15.00

Origin of Life, The *Mike Riddle* Has life been created in the laboratory? This DVD discusses attempts to create life, DNA, information and computers. Includes interviews with three creationists. (63+ min) $18.00

Origin of the Species: Was Darwin Right? *Terry Mortenson* Dr. Mortenson shows that natural selection and beneficial mutations do not support the theory of evolution. This DVD shows that real science always confirms that God’s Word is true. $15.00

Privileged Planet, The *Illustra Media* Through stunning computer animation and spectacular images of Earth and the cosmos, this video demonstrates the need for an intelligent designer. $18.00

Privileged Planet, The (Chinese) *This version of the popular DVD contains sound tracks in Cantonese, Mandarin and English.* (see description above) $18.00

Radioisotopes and the Age of the Earth *Steve Austin* The principles, methods and data from radioisotopes are explained very simply to illustrate conflicting ideas on the age of the earth. $13.00

Rate Premier Conference *ICR* The latest research findings on radio-isotopes and the age of the earth are presented in this 2-DVD set. It is formatted so that the conference can be viewed in its entirety or one session at a time. $28.00

Riddle of the Dinosaurs, The *An educational and entertaining lecture on dinosaurs for children.* Mike Riddle equips the home viewer to answer the questions that arise about dinosaurs. $14.00

Rocks around the Clock *Emil Silvestru* This DVD explores geological anomalies that do not support the theory of evolution. $13.00

Rocks of Ages or Rock of Creation *RATE, a creationist research project, finds exciting evidence that earth’s rocks may be only thousands of years old. (38 minutes)* $15.00

Rock Strata, Fossils and the Flood *Andrew Snelling* Using six main geologic evidences, Dr. Snelling demonstrates that a global flood would produce billions of dead plants and animals buried and fossilized in sand, mud and lime that were deposited rapidly by water in rock layers all over the earth. $13.00

Searching for the Truth on Origins *Roger Oakland* This series of messages compares the views of creation and evolution with the facts. It reveals the impact of the evolutionary view on human morality and spirituality and explains how the evidence for creation can be used as a tool for evangelism. There are 14 messages on 4 DVDs. $45.00

Starlight and Time *Rusell Humphries* See the spectacular 3D imagery how big bang and creation cosmologies differ and why the evidence supports a recent creation of the universe. $15.00

They’re Not Just Stories *Rod Martin* Join Rod Martin on an interactive journey through the Old Testament, stopping along the way to see how God used ordinary men and women in extraordinary ways to paint the “big picture” that leads up to the gospel. 47 min. $15.00

Thousands not Billions *This compelling documentary summarizes eight years of research by a team of scientists whose goal was to explore the age of the earth from a biblical perspective.* $18.00

Unlocking the Mystery of Life *Illustra Media* This video transports you into the interior of the living cell to explore systems and machines that bear the unmistakable hallmarks of design. $18.00

Lions; Kings of Africa (Exploration Films) Wildlife cinematographers spent an entire year living among a lion pride in the Ngorongoro Crater in Northern Tanzania. You’ll witness many rare images of the Ngorongoro Crater’s wildebeest migration from the Masai Mara National Reserve in Kenya to Tanzania’s Serengeti National Park is a spectacle of life and death witnessed by few humans... until now. This remarkable epic of survival is seen in vivid, riveting detail.
Wonders of God’s Creation, The Moody Institute of Science God has left His indelible signature on every member of His universe. You will see it on planet Earth, the animal kingdom and especially human life.

For those with scientific mind
Artistic Ape Anecdotes: The art of deception? (Don Batten) Dr. Batten deals with the claimed ‘apeman’ fossils in the evolutionary tree as promoted by the Smithsonian Institute and shows that the stories do not match the facts.
Biblical Geology: Properly understanding the rocks (Tas Walker) Learn how the message of the rocks agrees with the message of the Scriptures.
Chemicals to Living Cell: Fantasy or Science? (Jonathan Sarfati) In this fascinating illustrated lecture, a Ph.D. chemist shows how the laws of real chemistry prevent non-living chemicals from arranging themselves into living cells.
Cloning, Stem Cells and the Value of Life See description on p. 14
Code of Life See description on p.14
Creation Astronomy (Jason Lisle) In this illustrated lecture, Dr. Lisle shows viewers that when the evidence of nature is understood properly, it lines up perfectly with the clear teachings of Scripture.
Did Neanderthals and Modern Humans Share a Common Gene Pool? (David Menton) Dr. Menton uses scientific evidence to answer this “modern” question.
Dynamic Life: Changes in Living Things (Carl Wieland) This presentation shows clearly that the examples used to demonstrate that evolution is happening all around us are actually the opposite of what would support evolution.
Frankenstein Foods and Fetuses (Don Batten) Is the genetic modification of our foods ethical, safe, wise, Biblical? What about cloning and stem cell research? Discover how researchers have been influenced by evolution.
Geologic Evidences for Very Rapid Strata Deposition in the Grand Canyon See description on p. 15
Geology and Cave Formation: A post-flood story (Emil Silvestru) This DVD explains how the Genesis account of a recent, worldwide flood explains most cave formations. They did not take millions of years to form.
Global Warming See description on p.15
Grand Canyon: Monument to the Flood See description on p. 15
Hubble, Bubble, Big Bang in Trouble (John Hartnett) This physicist argues persuasively that quasars are not massive objects at the universe’s edge but embryonic galaxies ejected from mature galaxies in our own neighbourhood.

Ice Age: Only the Bible Explains It See description on p.15

Icons of Evolution See description on p. 15

In the Beginning was Information See description on p. 15

“Junk” DNA is Not Junk (David DeWitt) Although some scientists think they have discovered some DNA in human cells that has no purpose, this video shows that all DNA serves the purpose for which God created it.

Lucy, she’s no Lady (David Menton) This DVD shows that the skeletal remains popularly known as ‘Lucy’ could not be human and therefore ‘Lucy’ is not our ancestor.

Mammoth and the Ice Age, The (Michael Oard) How did these hairy elephants survive their hostile environment and what suddenly killed them? Michael Oard unravels the baffling mystery of the Ice Age that followed the Biblical flood.

Origin of the Species: Was Darwin Right? See description on p.16

Radioactive Decay Update: Breaking down the old-age paradigm (Keith Wanser) Dr. Wanser shows how the data from radioactive decay do not support an earth billions of years old.

Radioisotopes and the Age of the Earth See description on p. 16

Rate Premier Conference See description on p.16

The Relevance of Physics, Cosmology and Astronomy for Young-Earth Creation (Keith Wanser) Many scientists say that nothing in science makes sense except in the light of evolution. Dr. Wanser shows just the opposite in this interesting DVD.

Rocks and Ages: Do They Hide Millions of Years? (Emil Silvestru) Dr. Silvestru explains the assumptions that govern what geologists pretend to see in the rock record. A Biblical model makes much more sense of the rocks we find today.

Rocks Around the Clock See description on p.16

Rock Strata, Fossils and the Flood See description on p.16

Starlight and Time See description on p.16

Thousands… not Billions See description on p.16

Wild, Wild Weather: The Genesis Flood and the Ice Age Dr. Larry Vardiman Research indicates that the ice age can be explained by hot oceans and cold continents after the Flood.
The objects of the Association are both biblical and educational:
- To promote young earth creation among Christians
- To relate the Bible of the Christian faith to the sciences and disciplines in the educational world.
- To promote research to study creation science.

The statements of belief of the Association are as follows:
- Special Recent Creation rather than a creation by development from one form of life to another.
- Divine design and purpose in nature, as opposed to an unorganized chance development.
- A world-wide, global flood at the time of Noah.
- Christ as God and Man, as our ONLY Substitute and Savior.

The Association is dedicated to bringing to Canadians the amazing scientific evidence against evolution and in favour of Biblical Creation. The Association also sponsors public lectures and discussions throughout BC on the subject of Creation and its relationship to the gospel.

All members will automatically receive mailing news and information as well as notification of upcoming events. Members will receive free shipping on purchases.

Funds are needed to support the activities of the Association. Memberships are therefore solicited from those who subscribe to the objects and statements of belief of the Association as listed above.
