# International OK Dinghy

## Packages and Pricing

In Effect Jan 1, 2008.

F.O.B. Cowichan Bay, B.C.

The International OK Dinghy was originally designed as a trainer for the Olympic Class single-handed Finn. Measuring 13' 1.5" long, with an unstayed, cantilevered mast, this boat will reward those who sail it. Masts and sails can be custom-tuned to suit the sailor. Control lines are well laid out and within easy grasp while sailing.

Construction method and materials for all part used in the Base Boat are premium quality Vinylester resin and foam core vacuum bag laminate.

	<b>GST (5%)</b>	<b>PST (7%)</b>	<b>Total</b>	
<b>Base Boat</b>	\$10,000.00	\$500.00	\$700.00	<b>\$11,200.00</b>
Base boat comes equipped with an alloy mast, 15 degree fixed rudder blade, standard control layout, and a Main constructed to suit varying winds and sailor sizes.				

<b>Upgraded Boat</b>	\$12,500.00	\$625.00	\$875.00	<b>\$14,000.00</b>
----------------------	-------------	----------	----------	--------------------

Construction method and materials used in the Upgraded Boat are Epoxy and foam core vacuum bag laminate.

The Upgraded Boat is built with details added to custom suit the end user. Mast and sail are tuned to the sailor's size, expected conditions, and skill level. A kick up rudder and centreboard, both constructed in composite core, are included. Lines and fittings are upgraded to higher-performance gear (example Harken, Spectra, etc.)

An upgraded rigging pack is available for converting a Base Boat into an Upgraded Boat. Upgrades include: high-performance fittings and lines, Cored Composite Foils with Kick-up Rudder, Custom tuned mast and sail.

<b>Upgraded Rigging Pack</b>	\$2,500.00	\$125.00	\$175.00	<b>\$2,800.00</b>
------------------------------	------------	----------	----------	-------------------

**The OK Dinghy is also available in "kit" form, for those do-it-yourselfers, in many different stages of construction for final completion by the owner. This allows the owner to fit-out and finish the boat suit their style of sailing. All kit parts are constructed of the same high quality materials as our finished boats.**

<b>Hull Shell with Centreboard Trunk</b>	\$3,000.00	\$150.00	\$210.00	<b>\$3,360.00</b>
--	------------	----------	----------	-------------------

This option allow the owner to complete the boat (bulkheads, mast step, deck, fittings) to their own design.

<b>Hull Shell with Trunk, Bulkheads, Mast Step</b>	\$4,000.00	\$200.00	\$280.00	<b>\$4,480.00</b>
--	------------	----------	----------	-------------------

This option allows the owner to complete the boat by installing their own choice of decking and fitting out.

<b>Hull (complete) with Wooden Deck Installed</b>	\$5,500.00	\$275.00	\$385.00	<b>\$6,160.00</b>
---	------------	----------	----------	-------------------

This allows the owner to finish out the boat with their own fittings, thus reducing the overall work required.

<b>Hull (complete) with Composite Deck</b>	\$6,000.00	\$300.00	\$420.00	<b>\$6,720.00</b>
--	------------	----------	----------	-------------------

This allows the owner to finish out the boat with their own fittings, and provides a low-maintenance finish.

**A number of optional and/or replacement parts are available for the International OK Dinghy.**
