No. 20. Volume XXIII

THE ARRAN ARROW.

January 6th 1945

Having spent considerable energy, time and money renovating the premises, our genial host of the Arran Hotel has decided to seek an other location.

The property has been transferred to the new owner, Mr. Wm. Sawchuk, who takes possession as soon as the requirements of the Liquor Commissioners have been complied with.

The new host needs no introduction to his future local patrons, he is a product of the district where his family have resided since the first settlers located south of Arran.

He has been buyer for the National Grain Co. here, for some time past and is also a member of the trio who preside over the civic wellbeing of the Village.

Incoming mail which for the last six weeks has taxed the local post office staff to the limit, is again resuming normal proportions. At no time, however has mail failed to reach the three rural offices.

Line Elevators Farm Service
Winnipeg, Manitoba

Unnecessary Loss

Stinking smut of wheat is increasing at an alarming rate. In the inspection year, August 1st, 1943, to July 31st, 1944, 363 cars graded 'smutty'. The year before, only 157. This year, from August 1st to December 17th, only four and a half months, 347 cars have been classed 'smutty'.

Farmers would be wise to remember the following facts:

1. Thatcher is more susceptible to stinking smut than any of the well known varieties except Red Bobs and Reward.
2. Cold soil provides favourable conditions for the development of the disease. Very early sowing and cold weather after seeding increase the likelihood of smut in the crop if the seed is smutty.
3. A farmer may get by with straight grade wheat for years in spite of the presence of some smut. Then, due to a gradual increase of the disease or a sudden increase due to particularly favourable conditions, he may suffer a loss of about \$200.00 per car as a result of smut.
4. Stinking smut causes loss in yields as well as in grade.
5. Treatment with a mercurial dust costs about 5 cents, plus labour and equipment, per bushel of seed.
6. Formalin often seriously retards and weakens germination and, thus, encourages weeds and reduces yields.
7. Seed treatment, properly carried out, will control the disease.

All Line Elevator grain buyers can obtain copies of a printed leaflet giving more complete information. Ask for one.

Locals & Personals.

Almost every branch of the Canadian Army was represented here during the Christmas and New Year holidays.

Among those who spent the holidays with their families, we quote but a few. Pte. G. Assoignons, of Whitebeach is spending a week at home.

Three brothers of the Lyluk family have been on leave at home from the airdromes:

L. A. C. Czez spent a few days at his home here.

Pte. Walter Zaharychuk was home for some few days around Christmas, as was Pte. W. Hawryluk.

Pte. P. Bugera left last Tuesday to rejoin his regiment after a short leave.

Miss Zachary visited relatives here last week.

The Christmas cake raffle in aid of the Red Cross netted forty-nine dollars, and the cake went to Mr. D. Sikorski who held the winning ticket.

K. Raable of Maloneck paid Arran and the Arrow man a visit last Wednesday.

1945 ?

Another year has come and gone. And with the knell of the past year comes the usual query: what does 1945 hold for us!

Though this remains unanswered, many tell us that it holds no relaxation of our endeavors to conquer the enemies of progress and freedom. That until this end is accomplished, there can be no hope of lasting Peace.

Even that tells only a part of our tasks for the future.

Having reached that Peace, can we ordain it to be a just peace and above all, a lasting Peace?

Shall we in our gladness at the cessation of hostilities, let the guilty ones escape? be they individuals or nations, shall we permit them to lay the foundations for another yet more destructive war?

At home, shall we permit individuals or corporations to plunge our peoples into periods of plenty and still longer periods of scarcity and want, for the sake of higher profits?

In a land abundantly rich, shall the bulk of its toilers be continually in dire need of the necessities of life?

Truly we know not of 1945, yet were we but willing, it could bring much for all of us.

R. J.

Here And There.

RED CROSS NOTES.

One of the most active of our community's Associations is the local Red Cross, as shown by the report presented to the members at the closing of 1944 activities.

The outstanding item is the forwarding of \$750.00 to Red Cross headquarters during the past twelve months.

Congratulations are due the executive committee on this achievement.

SKATING RINK.

The committee in charge of what could well be termed public utility, the skating rink, did very well in the initial stages, but now, when the need is greater and time shorter, seems to have frozen.

With our dual holiday season, the young people and the not-so-young, are wondering where's the hitch.

The season, generally short enough, is made shorter still by undue delays.

RCMP. PROMOTIONS

Corporal Parsons, of the Pelly Detachment has received recognition of services by way of promotion to the rank of Sergeant. He also has been transferred to the Yorkton Division.

With the departure of Sergeant Parsons, Const. Johnson will go to the dogs, (figuratively speaking of course) nevertheless it's true that he is being transferred to "K9" branch of the service, where his special talents in dog training will be most valuable.

Wm. STASIUK

PROVINCIAL BRIEFS.

o + o

A " PRACTICAL CHRISTMAS MESSAGE".

Calling it a "practical Christmas message" from the people of Saskatchewan to their old folks, lonely mothers, dependent children and a number of blind persons" Hon. C.W. Valleau acting minister of Public Health, announced medical care provisions for these groups effective as of January 1st.

Medical and surgical services, hospitalization and drugs required by eligible persons will be paid for by the department of health, subject to certain restrictions and provided applications are approved by the social welfare department.

Some 25,000 persons will be benefit from this step.

o * o

SASKATCHEWAN CO-OP LEADER.

In volume of business done by co-operatives, Saskatchewan led the Dominion in 1943 with a total of \$100,423,432, according to the Dominion report from the Department of Agriculture.

Ontario ranked next to Saskatchewan with \$55,966,902 of co-operative business.

o . o

IMPLEMENT CO-OPERATIVES.

Saskatchewan's share of the \$250,000 loan promised by the three Western Canadian governments to the Canadian Co-

operative Implements Ltd. has been advanced to the company, it has been announced by Provincial Treasurer C.M. Fines.

The machinery co-operative has taken over the machinery and farm hardware factory operated in Winnipeg by the Cregg Manufacturing Co. Ltd.

Farmers of the three prairie provinces undertook the venture in an effort to lower the costs of farm machinery.

ARRAN,

Fire Of Unknown Origin Destroys Arran Residence.

Wednesday afternoon, one of Arran's landmarks, at present occupied by F. Hordychuk, was completely destroyed by fire of unknown origin.

Thought to have started from an overheated smoke-pipe, and noticed too late to allow successful attempts at fighting, the flames which for a while seemed confined to the upper part of the house finally burst through the roof and the end was inevitable. All that remains of a once substantial building are a cement cellar and a heap of ashes and debris.

The building, a substantially built two story house, was erected by the late George F. Wright and occupied by members of the family for many years.

It was one of the very few remaining buildings dating back to boom days of 1916.

Appropriated by the local civic authorities, it passed to its present occupants about a year ago. House and contents were insured.

Skating Rink Still

A Mirage.

Though the public responded to the call for funds in no niggardly manner, there is as yet no evidence that the committee is aware of the young people's longing for a rink.

It is a puzzle to many, nevertheless an accepted fact, that where the interests or wellbeing of the young people are in question, we are slack.

The generous support given by the public should be proof enough that parents and others had seen the need for a rink.

Why the delay ?

HE PROTECTED *You* —

Resolve now to "hold that ceiling in 1945".
Our service men, as they return to civilian life, will receive clothing allowance... mustering out pay...
How far their money will go will depend more than ever on how carefully Canadians at home spend theirs this year.

New Year Greetings,

If you expect 1945 to be the toughest of the war years on the battle and home fronts, so far experienced in this war, you should be able to approach the New Year courageously.

But if you are dreaming of battles won with the greatest of ease and stores bulging with goods to sell...

Watch out ! It may not be so !

**LIBERTY'S
CANADIAN
HALL OF FAME
No. 9**

Miss Winnifred Kydd, of Montreal, slim, smart, lovely, is still on the sunny side of thirty but she has captured the highest honors ever to be given a woman in Canada.

She is the youngest person ever to be president of the National Council of Women, having gained that office four years after her first public speech.

Now holds the following offices: vice-president of the Montreal Y. W. C. A.; vice-president, International Council of Women; vice-president Montreal Children's Library Committee; President Women's Debating Society; member, Permanent Conference for the Protection of Immigrants; captain, Girl Guides.

Not content with this she accepted a deanship of women at Queen's University and distinguished herself by immediately establishing a girl's smoking room.

Was the first Canadian woman to be appointed to the World Disarmament Conference. The honor was not too great. She kept it a secret for a whole month.

Has a sense of humor, is considered brilliant, tactful and possessed of an engaging personality so that her ability to dominate women older, more experienced, more learned is no mystery. Is an internationalist, a believer in disarmament and a champion of women, believing in their capabilities and their eventual place in the sun.

Educated at McGill University and Bryn Mawr, she is the daughter of a Montreal financier.

THE BOY WHO DIDN'T PASS.

A sad-faced little fellow sits alone in deep disgrace.

There's a lump arising in his throat and tears stream down his face.

He wandered from his playmates for he doesn't want to hear

Their shouts of merry laughter since the world has lost its cheer.

He has sipped the cup of sorrow he has drained the bitter glass,

And his heart is fairly breaking; he's the boy who didn't pass.

Exch.

For CLINIC DATES,

GARNET WHEAT

After August 1st next, under "Amendments Made to The Canada Grain Act," very small mixtures of Garnet in other kinds of wheat, or of other kinds of wheat in Garnet, will lower the grade. Mixtures of varieties in the field can be detected by examination of the heads. To assist farmers to recognize mixtures in their own crops the Searle Grain Company at each elevator has a Demonstrative Plot where the important varieties of wheat, oats and barley will be found growing in a pure state. Farmers are invited and recommended to visit these plots.
